

Thomas A. Fantacone, AIA, LEED AP BD+C
Principal

Experience

Mr. Fantacone’s career spans 40 years, encompassing the design of higher education, corporate, commercial, industrial, healthcare, and government facilities. His projects have garnered design, community, and industry recognition for their contributions to the built environment.

Mr. Fantacone provides design leadership across the firm, collaborates with clients to translate the program and goals of the project into three dimensional form, and remains involved to see that the design remains true to its vision.
